

Health, Safety, Environment and Quality Policy

SEPCO Oil and Gas Industry is a safety conscious and environmentally responsible company that is committed to providing a safe place of work and to operate in a manner which will ensure the highest standards of safety and environmental protection. SEPCO Oil and Gas will ensure compliance with the applicable Mauritanian legislation, and where adequate legislation does not exist, will go beyond regulatory compliance through the EHS Management System and its standards.

All SEPCO Oil and Gas Industry's operations in Mauritania will ensure that:

- Signed Statements are produced and displayed at each service and operational location, providing a written commitment from senior management to comply with EHS standards and policies related to client operations and activities;
- Personnel will lead by example through ongoing demonstration of EHS commitment;
- Standards will be achieved through the development of programs and their implementation;
- EHS objectives, strategies and key performance indicators will be developed and achieved;
- Reviews will be undertaken to ensure continual improvement in management practices.

SEPCO Oil and Gas industry's employees and contractors are required to:

- Comply with EHS requirements;
- Work in a safe and environmentally responsible manner at all times;
- Report all hazardous and/or environmentally unacceptable situations and incidents;
- Play an active role in EHS reporting and management.
