

Environment Policy

SEPCO Oil and Gas Industry is an environmentally responsible company committed to operate in a manner which will ensure the highest standards of environmental protection are maintained.

This Environmental Policy is designed to provide realistic guidelines for the personnel involved in SEPCO's activities. SEPCO is committed to conduct its activities in compliance with the Mauritanian environmental legislation. To meet this commitment SEPCO is:

- Developing a comprehensive Environmental Management System;
- Committed to appointing specialist environmental advisors as required;
- Auditing and analysing risks, being supported in this endeavour by external advisors.

SEPCO plans and coordinates activities in a manner designed to minimise any disturbance to its operating environment and has established and will maintain environmental standards consistent with industry codes and relevant statutory requirements.

To fulfil the above objectives SEPCO will endeavour to:

- Aim for standards of environmental excellence in all activities;
- Co-operate with customer and government guidelines and legislation;
- Protect the environment by minimising nuisances in all of its activities;
- Avoid the pollution of land, water and air by strict adherence to regulations and industry codes.
- Continually monitor its activities and operations to comply with environmental standards;
- Instruct and inform all employees and contractors of their environmental responsibilities
- Insist on strict compliance with all environmental codes of practice;
